default ⌵

- POST** [/gender/by-first-name](#) Query by a single first name ⌵ 
- POST** [/gender/by-full-name](#) Query by a single full name ⌵ 
- POST** [/gender/by-email-address](#) Query by a single email address ⌵ 
- POST** [/gender/by-first-name-multiple](#) Query multiple names in a single request ⌵ 
- POST** [/gender/by-full-name-multiple](#) Query multiple names in a single request ⌵ 

APP INTEGRATIONS

Gender-API can be integrated in many apps and we are working hard to add even more.

Google Sheets

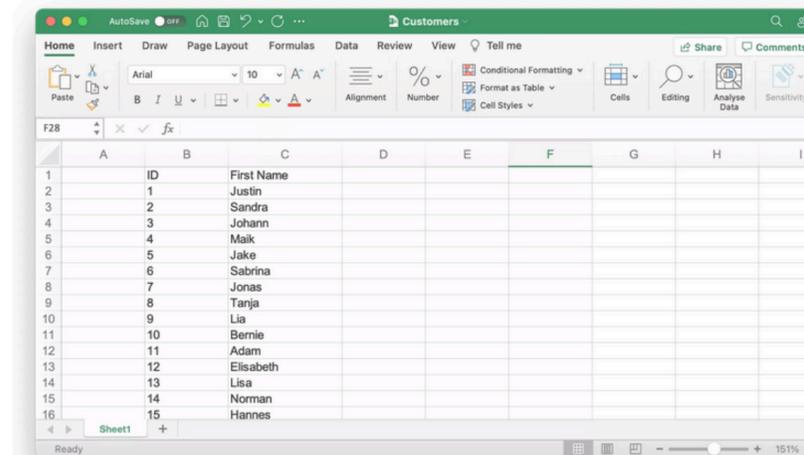

Screenshot Google Sheets

Add our extension to Google sheets to genderize names directly in your spreadsheet.

[View Integration](#)

Excel File Upload

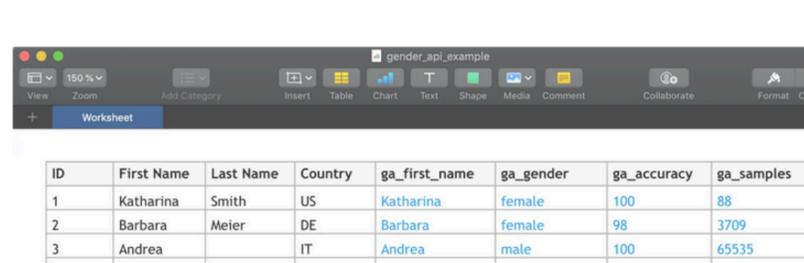

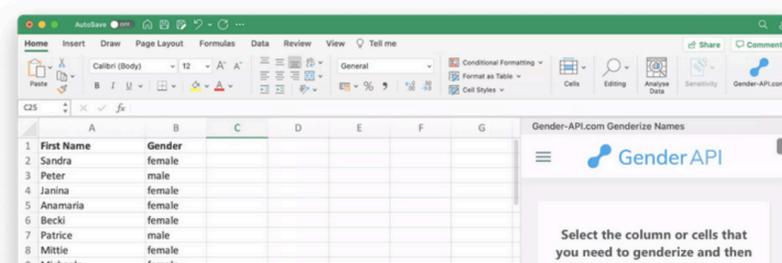

Screenshot Excel App

To enrich Microsoft Excel and CSV files, upload them directly to our platform. No installation needed.

[View Integration](#)

Microsoft Excel Native Extension

Determine The Gender Based On An Email Address

How It Works

You can split a full name with a single API call into a first name, a last name and a gender probability.

Upload Multiple Datasets In One Go

	A	B	C	D
1	First Name	Last Name	Country	
2	Peter	Jones	US	
3	Andrea	Barto	IT	
4	Tanja	Buchner	DE	
5				
6				

Easily bulk upload and process large dataset with up to 10,000,000 records per file using our CSV and Excel file upload feature.

Easy Integration

PHP

Python

jQuery

Swift

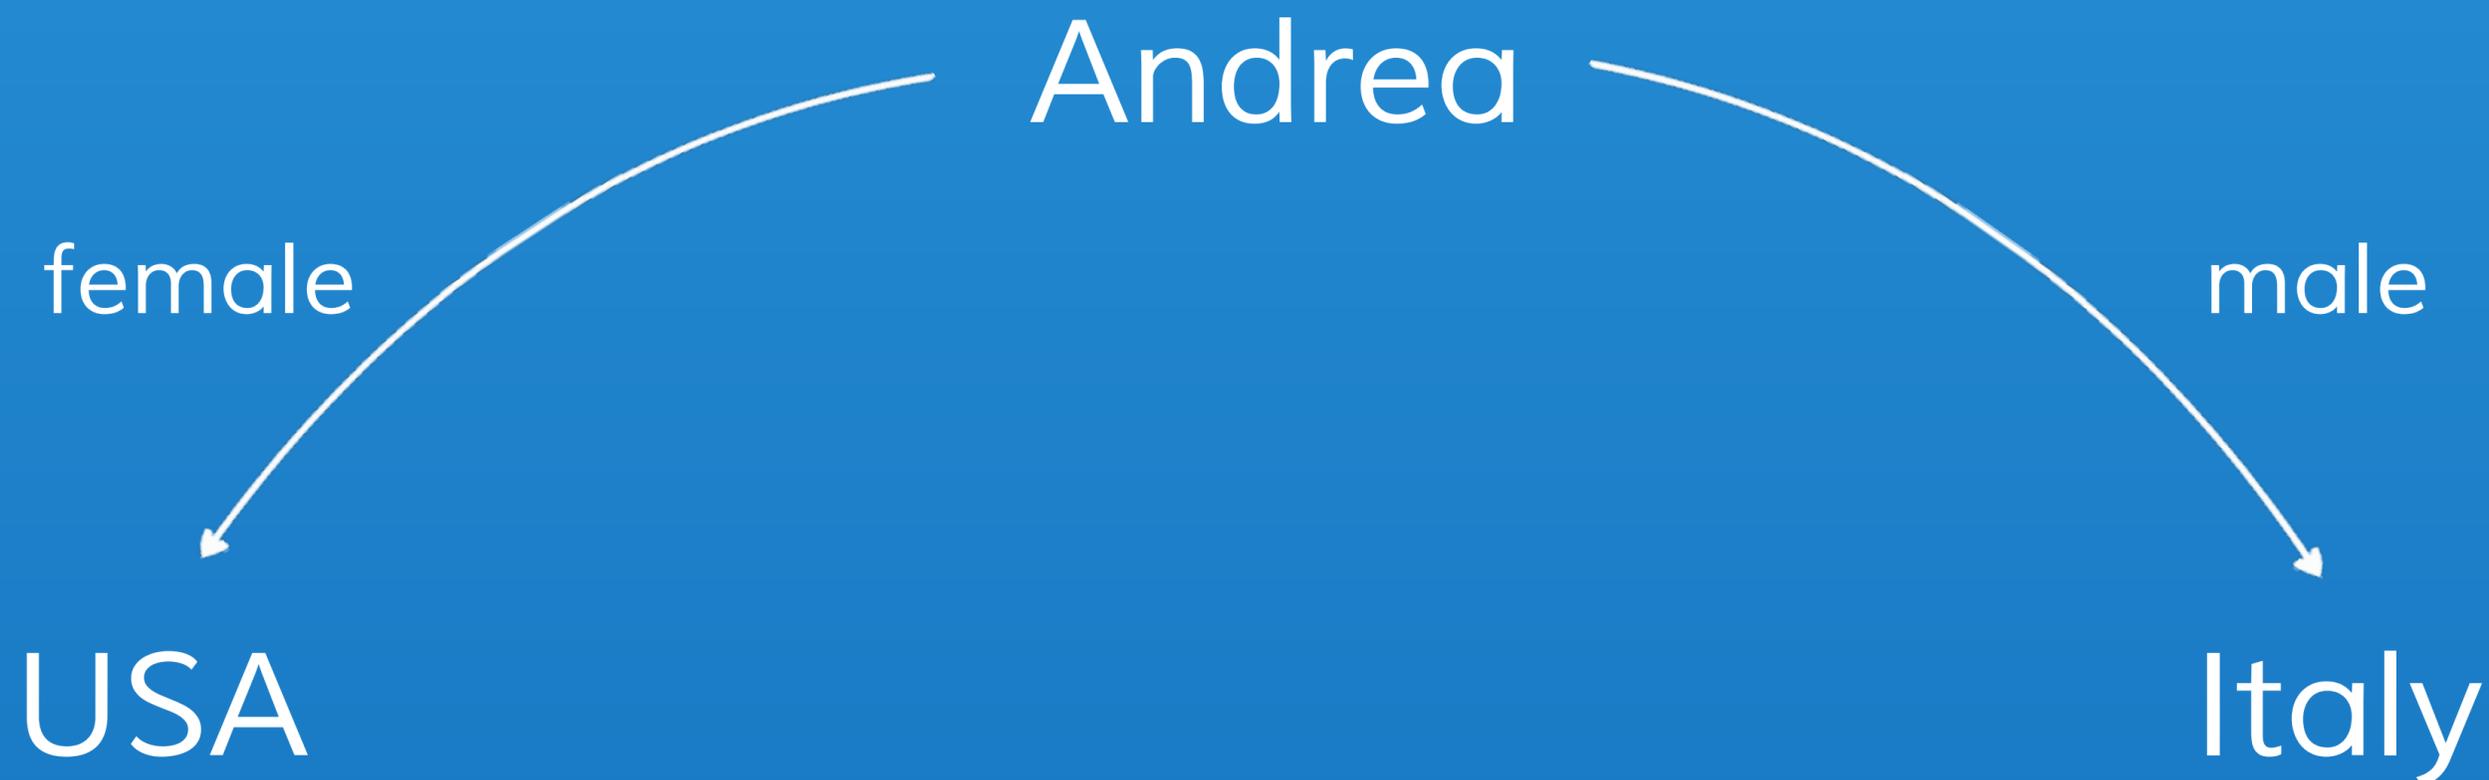

Java

Angular

Ruby

Our API can be easily integrated into every existing platform in any language.

Localize Your Queries

Add more accuracy to your request by localizing your queries.

How It Works

Specify your queries by adding:

- country code
- IP address
- location

When you query a name you can either provide a locale or we can determine the location of your customer based on his IP address or browser location.

What Countries We Support

We support 178 countries
with 1,877,786 names in total.

Subscriptions

500 credits	FREE FOR REGISTERED USERS
5,000 credits	7.99 € per month
25,000 credits	35.00 € per month
100,000 credits	79.00 € per month
500,000 credits	199.00 € per month
Need a bigger package?	Request a quote

Subscription plans can be changed or canceled at any time. Credits can be used within one month. Each name query requires one credit. All prices are quoted as net prices and subject to VAT.

One-Time Payments

5,000 credits	9.99 €
25,000 credits	45.00 €
100,000 credits	99.00 €
500,000 credits	299.00 €
Need a bigger package?	Request a quote

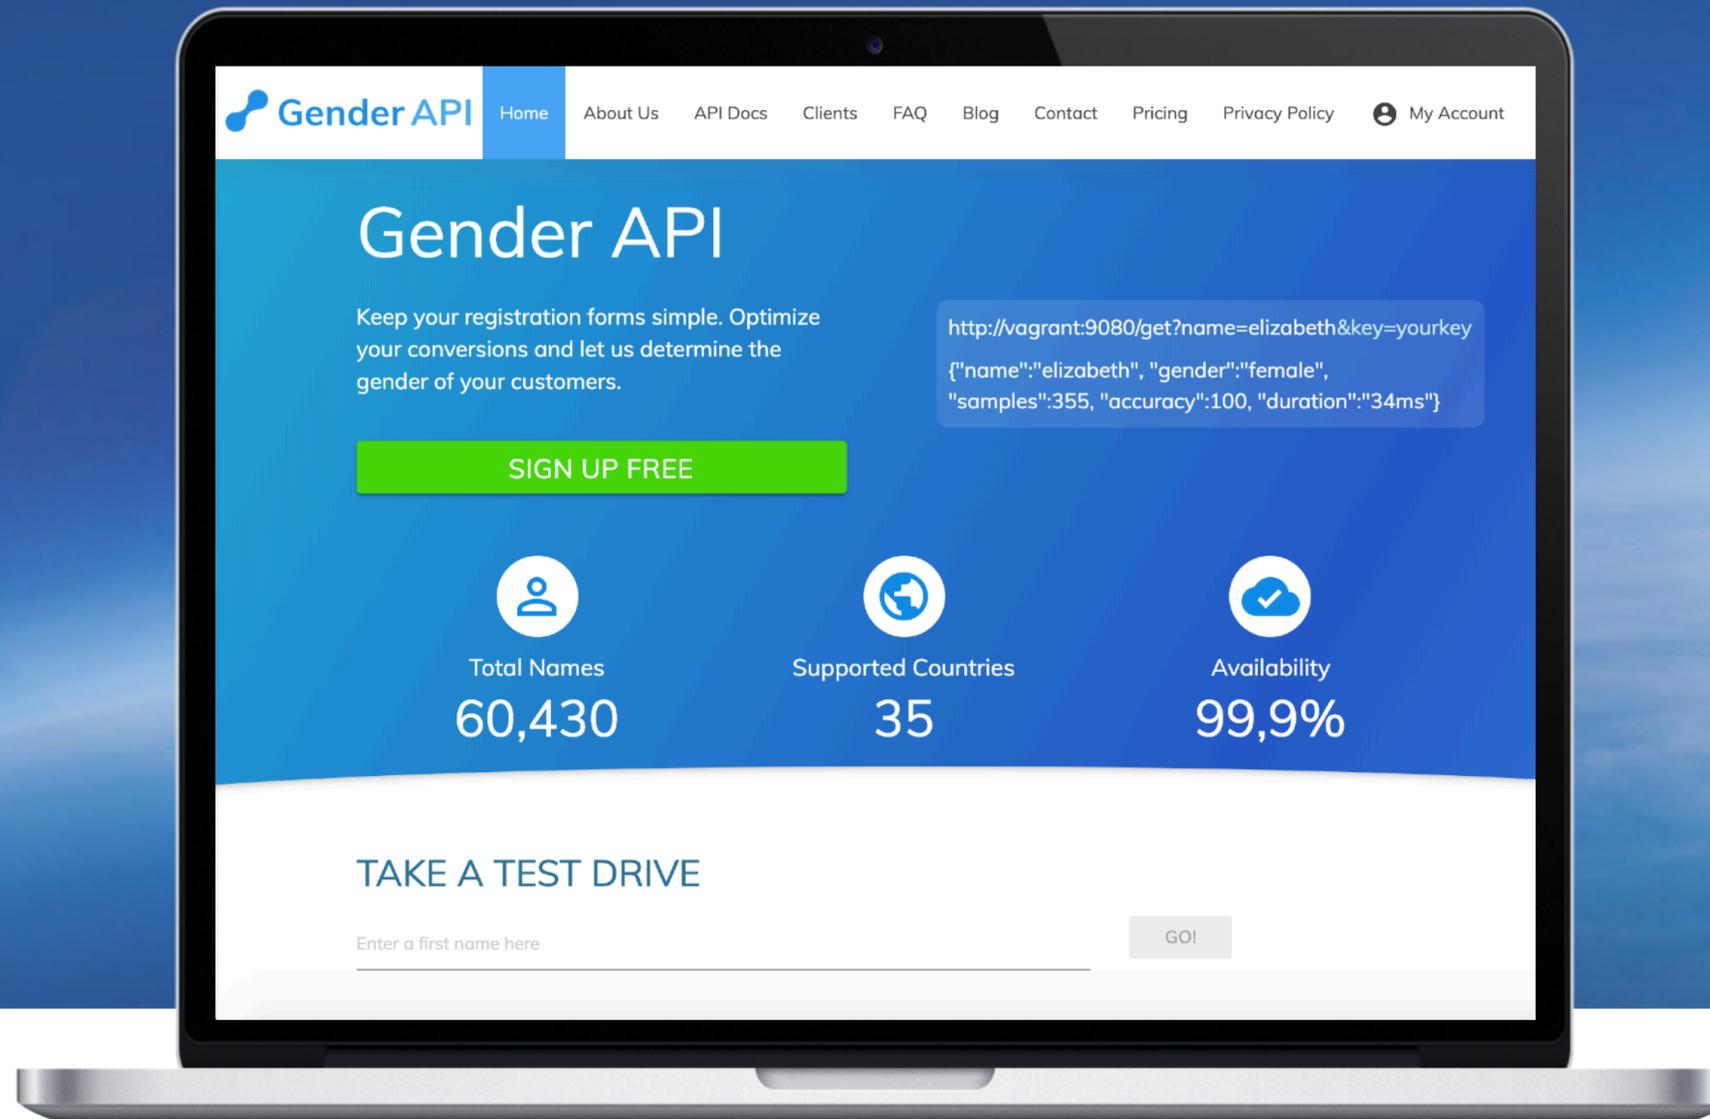

No monthly payments. Credits can be used within one year. Each name query requires one credit. All prices are quoted as net prices and subject to VAT.

A free account will be recharged to 500 requests on the first day of every month

Pricing

Only when a result is found, the request will be counted. You don't have to pay for queries we couldn't resolve.

Take a Test Drive

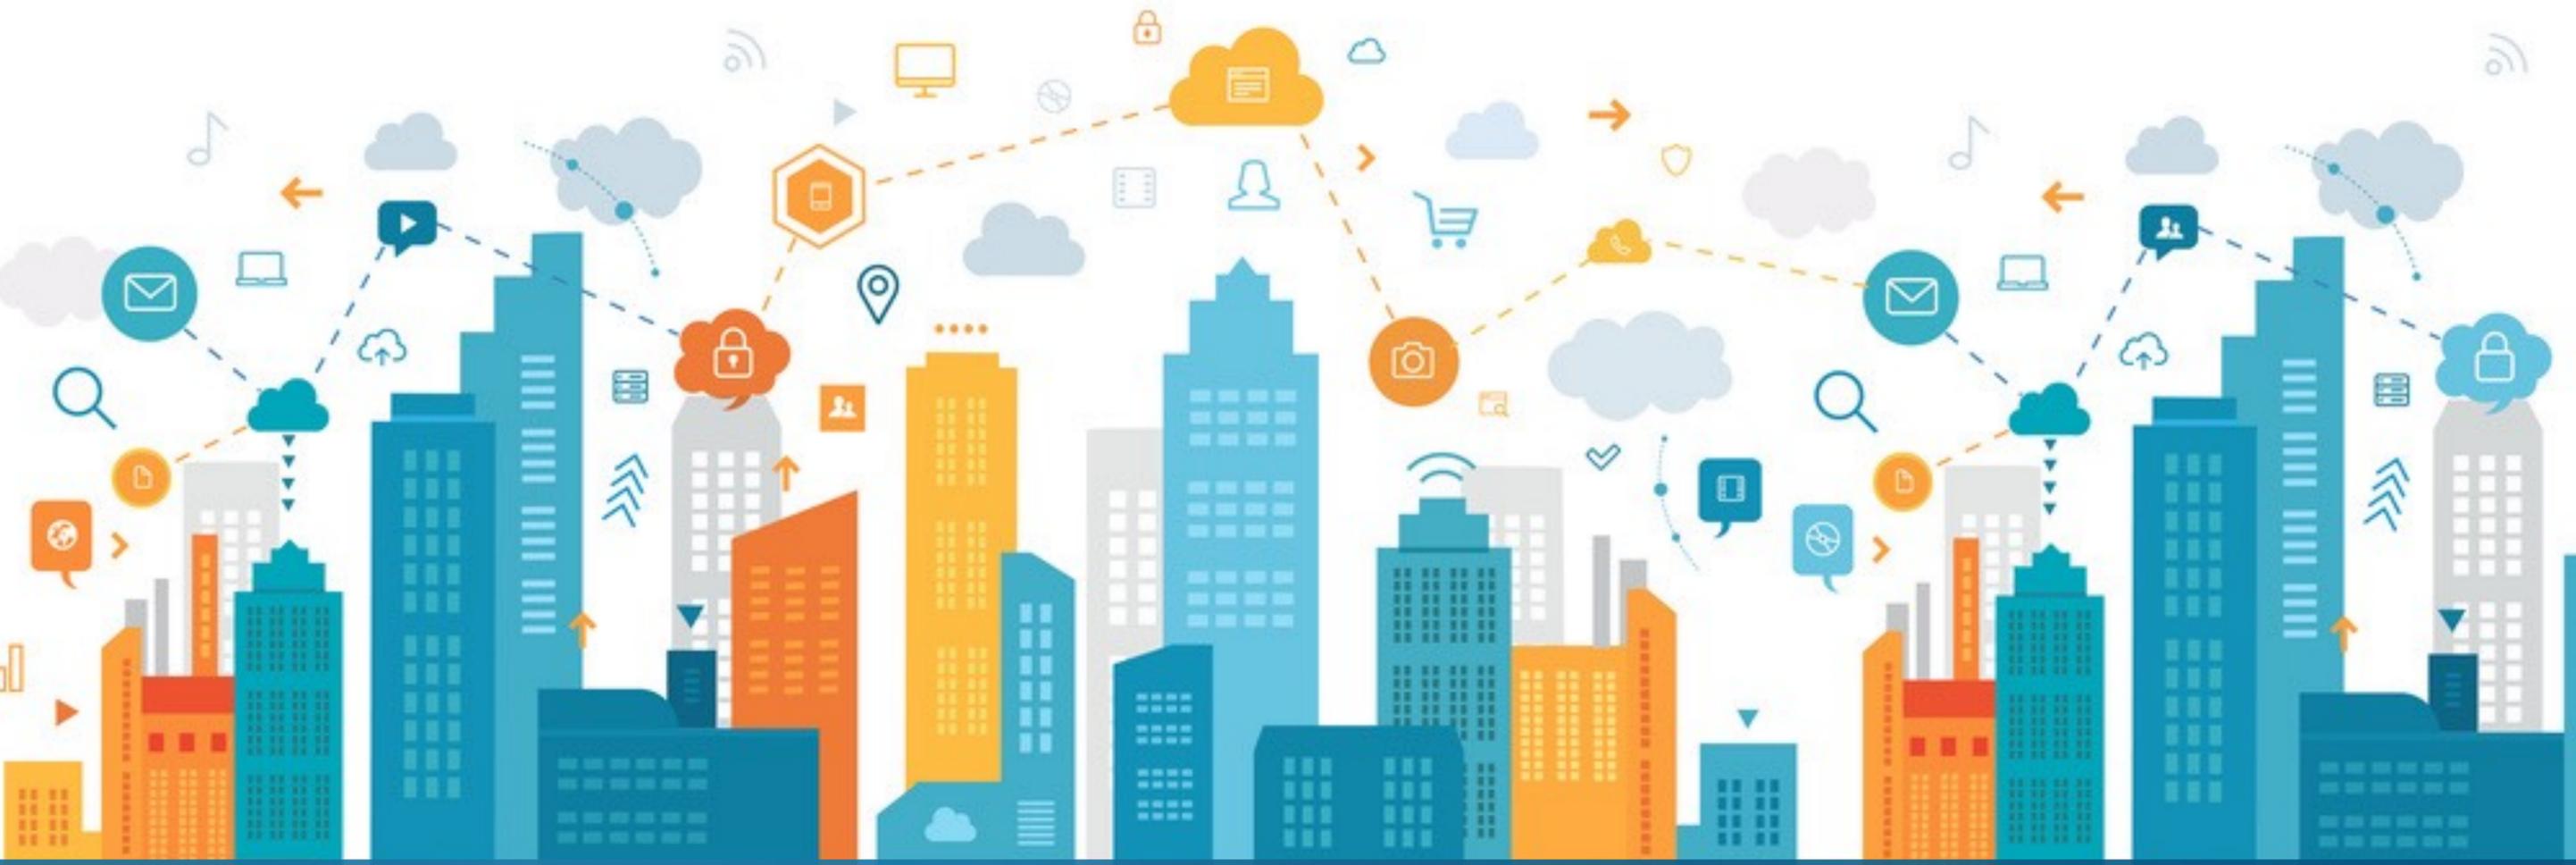

Register now and get 500 requests for free every month.
